

Benoist & Company is a business consultancy, focusing on specialist work for the financial industry.

Among our customers are leading global financial institutions, from A like ABN-Amro to Z like Zurich Financial Services. We are looking for new employees for projects in Germany and abroad.

At Benoist & Company we have created a friendly working environment where we strive to achieve a good work life balance.

Our greatest assets are our employees and we try to reflect it. They have an excellent academic record and usually have a Ph.D. degree when starting at Benoist & Company. In general, our consultants have a strong background in science or mathematics. Benoist & Company offers rich possibilities to develop further skills in financial mathematics and banking and insurance know-how.

You have a doctoral degree (e.g. in mathematics or physics) with excellent grades and/or with a science degree including additional financial and economic qualifications, we could offer the possibility of employment as

Consultant

You should have an interest in financial mathematics and be prepared to learn more in coached self studies. Our B&C academy will then lead you to the frontier of mathematical finance.

What we expect from you:

- An excellent ability to express yourself in German and English
- Basic knowledge in methods and data analysis (programming knowledge is appreciated but not required)
- An open manner as well as the ability to solve the problems of our costumers in investment banking confidentially and to develop durable solutions
- A high degree of willingness to travel for project work in Germany and the Anglo-Saxon world.

Benoist & Company offers you:

- A permanent position with attractive conditions.
- Additional social benefits (company pension scheme, company support of child care costs, etc.)
- Excellent carrier possibilities

Your application documents, which you can send by mail or e-mail, should contain a complete CV as well as your high school and university diplomas. We would also like to receive an excerpt from a technical or scientific text written by you.

Please don't hesitate to contact Christoph Wieboldt at + 49 (0)160 9039 0626 for all questions concerning your application

Benoist & Company GmbH, Seefelder Str. 15, D-82229 Seefeld, Germany
